

Patch Panel

1U High Density / Black

Splice modules

(Up to 144 Fibres)

Part number (empty): 144-1U-12MS

[More information](#)

Technical specifications

- Length: 486.6 mm
- Height : 44 mm
- Depth: 277.4 mm
- Weight: 3.25 kg (before packaging)

Part number (equipped): PPKH1F011S4

Product description

Optimise your infrastructure with the **LightMax® High Density Splice Distribution Patch panel**, a modular solution for efficient management and organisation of fibre optic connections. Its versatile design adapts to networks specific needs, allowing the number of modules to be integrated into the type of fibre required. **Pre-assembled and ready-to-splice modules save installation time and effort.**

Technical specifications

Capacity:	Up to 12 splice modules, 144 fibres
Material:	Black cold-rolled steel
Stands:	2 depth-adjustable side supports
Levels:	3 fixed levels for easy access to modules
Compatibility:	19" EIA
Protections:	Removable top covers

Application

- Data Center
- Enterprise networks
- Telecommunications facilities

Features

- Removable cover for easy access during installation or maintenance
- Includes a front cable organiser

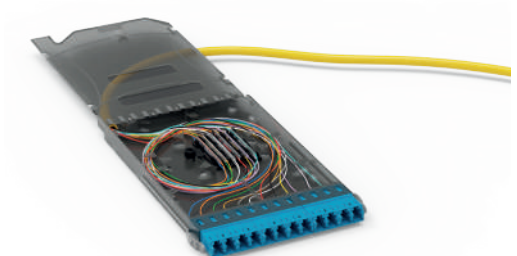

Available Configurations

Available module configurations

Fibre Type	Connector	Pigtail	Colour Code
OM4	LC	12	Fotag
G657.A2			

Part numbers

Part number	Product
144-1U-FSMS	Bracket for cable management
PPKH1F012S4	Equipped with 12 OM4 slim splice modules
PPKH1F012S2	Equipped with 12 G657.A2 slim splice modules
LMMSM412LCFG	Slim Splice Modules OM4
LMMSA212LCFG	Slim Splice Modules G657.A2
