Part number: LMMSM412LCFG

## Product description

LightMax<sup>®</sup> introduces the Slim splice module with LC-Duplex adapters, an innovative and compact solution for the connectivity of high density fibre optic distribution systems. Designed for maximum performance in confined spaces, our module combines state-of-the-art technology and high quality materials to ensure reliable and durable connectivity.

## Technical specifications

|               |                                          |
|---------------|------------------------------------------|
| Capacity:     | 12 fusion splices                        |
| Material:     | Plastic                                  |
| Fiber Type:   | G657.A2 and OM4                          |
| Pigtails:     | 1 Kit of 12 LC pigtails                  |
| Adapters:     | LC Duplex                                |
| Colour coding | Fotag                                    |
| Accessories   | 12 heat-shrinkable sleeves and 2 flanges |

## Application

- Data centre
- Enterprise networks
- Telecommunication installations

## Features

- Lightweight and compact.
- Polishing of LC connectors: UPC (SM) and PC (OM4)

## Available Configurations

| Fibre Type | Connector | Pigtail | Colour Code |
|------------|-----------|---------|-------------|
| OM4        | LC        | 12      | Fotag       |
| G657.A2    |           |         |             |

## Part numbers

| Part number  | Product                                     |
|--------------|---------------------------------------------|
| LMMSM412LCFG | OM4 Splice module                           |
| LMMSA212LCFG | G657.A2 Splice module                       |
| 144-1U-12MS  | High density patch panel for splice modules |
